October 1st, 2024

Price Increase of SEPTON™, HYBRAR™ and TU-Polymer

The Elastomers Business Unit will raise the transaction prices of following Elastomer products in all regions effective Oct 15, 2024, or as existing supply agreements allow:

ALL SEPTON™, HYBRAR™ and TU-Polymer: \$0.22 per kilogram (\$0.10 per pound).

Increasing feedstock, process chemical, utility, logistics, maintenance, and other costs have reached a level beyond unilaterally absorbable by self-saving efforts. This time, it is necessary to recover a portion of these increases to ensure ongoing supply and new product innovation.
